

PUSKAR SHAW

Full Stack Developer (React.js / Next.js / Node.js / MongoDB)

Kolkata, West Bengal, India | puskarshaw346@gmail.com | +91 8961726338 | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science Diploma student and full-stack developer with hands-on experience building and deploying production web applications using React, Next.js, Node.js, Express, MongoDB, Socket.IO, and REST APIs. Skilled in responsive UI development, authentication flows, real-time communication, CRUD systems, and debugging deployment issues. Seeking an internship or junior full-stack developer role where practical project execution, clean code, and fast learning are valued.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, C++, Java (basics), SQL

Frontend: HTML5, CSS3, Tailwind CSS, Bootstrap, React.js, Next.js, Redux Toolkit, TanStack Router/Query, Shadcn UI

Backend: Node.js, Express.js, REST APIs, Socket.IO, WebRTC, Authentication & Authorization, CRUD APIs

Databases: MongoDB, Mongoose, MySQL, PostgreSQL, Prisma

Tools & Platforms: Git, GitHub, VS Code, Postman, Chrome DevTools, Figma, Vercel, Netlify, Render, Prisma Studio

Core CS: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming

PROJECTS

BlueMeet — Real-Time Video Calling Application | *React, Vite, Tailwind CSS, WebRTC, Socket.IO, Node.js, Express*

- Built a peer-to-peer video conferencing application featuring room-based joining, live video/audio calls, screen sharing, and seamless leave/rejoin handling.
- Implemented WebRTC signaling using Socket.IO events to manage offer/answer exchange, ICE candidate negotiation, ready-state detection, and room-capacity control.
- Improved call stability by resolving ICE candidate queue timing, remote description setup, media stream cleanup, and cross-origin (CORS) issues across Vercel and Render deployments.

JARVIS AI Chatbot — Conversational AI Web Application | *React, Node.js, Express, MongoDB, Groq API*

- Developed an AI-powered chatbot with persistent conversation history, memory storage, a mobile-friendly chat interface, new-chat/delete functionality, and a voice/text-to-speech toggle.
- Designed REST API endpoints and MongoDB schemas to support chat persistence, user memory, and context-aware responses based on recent conversation history.
- Deployed the frontend and backend on Vercel and Render, resolving CORS configuration, environment variable management, and API model migration issues.

AI Resume Analyser | *Flask, Python, MySQL, PyPDF2, python-docx, HTML, CSS*

- Built a resume analysis system that accepts PDF/DOCX uploads, extracts resume text, and presents results through dashboard and history pages.
- Implemented secure login/signup, server-side routing, MySQL database integration, and a clean, card-based UI for a professional user experience.

Business Website Projects — Das Enterprise, Efintech Solutions, Consulting Firm | *HTML, CSS, JavaScript, React, Tailwind CSS*

- Designed and developed responsive, mobile-first business websites with clean layouts, service sections, and contact pages for multiple client-style use cases.

EDUCATION

Diploma in Computer Science and Technology

2024 – 2027

Bipradas Pal Chowdhury Institute of Technology, Krishnanagar, West Bengal | CGPA: 7.5

Higher Secondary (H.S.)

2023 – 2024

Sacred Heart Day High School, Barrackpore, West Bengal | CGPA: 7.0

ACTIVITIES & STRENGTHS

- Participated in hackathons and developer learning programs, including the Gen AI Academy RAG Challenge, Prompt Warrior, and GDG ML Kolkata sessions.
- Core strengths: problem solving, debugging, teamwork, self-learning, responsive UI design, API integration, and production deployment troubleshooting.
